STRESS DEFENDER RECOVERY BLEND

3-0-5 SOP WITH 2% IRON, 5% SOLUBLE CALCIUM AND INTENSIFY MICROBIAL BIOCATALYST

Stress Defender & Recovery Blend from Solu-Cal contains a specialized fertilizer mix that supplies nitrogen and potassium to support healthy plant growth and aid photosynthesis. It also provides a powerful water management tool with Aqua-Ca for both vertical and horizontal hydration. The addition of iron ensures healthy green turf with 5% soluble calcium.

Stress Defender & Recovery Blend also delivers beneficial microbes to stimulate and improve soil microbiology, especially in nutrient-deficient soils. Use Stress Defender & Recovery Blend to build hardiness, drought resistance and stress tolerance with a healthy, no surge green-up.

- May increase plant uptake of N and P
- Includes Aqua-Ca Technology to increase water penetration and water infiltration
- At 11m coverage per bag supplies 26 oz per acre of Aqua-Ca Technology
- More efficient use of irrigation water and rain water
- Increases soil moisture movement and retention in the root zone
- Increased water penetration & reduced runoff
- Better water distribution through the root zone

Application

Existing Turf and New Seedings – coverage per bag 11,000 sq. ft. or 200lbs/acre (delivers 26oz./acre rate of Aqua-Ca Soil Surfactant). For best results apply to dry turf and water in thoroughly. Apply every 8 weeks or as needed to prevent drought stress. Calibrate spreader to deliver 4.5lbs per 1,000 sq. ft.
