

Efficient alternative to Sul-Po-Mag^{®*}, KMag^{®*}, or SOP applied with Gypsum/Lime

K-CAL

0-0-22 with Ca, S, and 6% Mg
Micro Greens Grade 100 SGN

Covers 11,000 sq. ft. to 22,000 sq.ft.

Powered by **INTENSIFY**
Soil Microbial BioCatalyst[™]

- Supplies Sulfate of Potash and soluble Calcium from Solu-Cal PLUS
- Contains Solu-Cal PLUS Enhanced Calcitic Lime
- Addresses K, Ca and Mg deficiencies in one application
- Powered by INTENSIFY Soil Microbial BioCatalyst - 9 strains of beneficial bacteria & fungi - to significantly increase nutrient availability and efficiency
- Contains 6% Magnesium to address Mg deficient soils

Guaranteed Analysis

Soluble Potash (K ₂ O).....	22.00%
Calcium (Ca)	15.00%
Sulfur (S)	7.70%
Magnesium (Mg).....	6.00%

SOLU-CAL K-CAL may be applied to a wide variety of established turf grasses & newly seeded turf areas. For best results, water in after spraying.

FOR EXISTING TURF: Coverage 10 000 sq. ft. Apply 5 lbs per 1000 sq. ft or 220 lbs per acre. To assure complete and even coverage apply at half rates in two directions. Apply to dry turf. Water in thoroughly.

SOLU-CAL K-CAL if used at 220 lbs per acre will provide 1.1 lbs of Soluble Potash, 0.86 lbs of calcium per 1000 sq ft with each application. It is ideal for all turf types.

K-CAL PLUS

0-0-24 with Ca, S, and 6% Mg
Micro Greens Grade 100 SGN

Covers 11,000 sq. ft. to 22,000 sq.ft.

Powered by **INTENSIFY**
Soil Microbial BioCatalyst[™]

- Supplies Sulfate of Potash along with soluble Calcium and Sulfur
- Contains Solu-Cal S Enhanced Gypsum
- Excellent for correcting high sodium and low potassium soils
- Powered by INTENSIFY Soil Microbial BioCatalyst - 9 strains of beneficial bacteria & fungi - to significantly increase nutrient availability and efficiency
- Contains 6% Magnesium to address Mg deficient soils

Guaranteed Analysis

Soluble Potash (K ₂ O).....	24.00%
Calcium (Ca)	10.00%
Sulfur (S)	17.00%
Magnesium (Mg).....	6.00%

SOLU-CAL K-CAL PLUS may be applied to a wide variety of established turf grasses & newly seeded turf areas. For best results, water in after spraying.

FOR EXISTING TURF: Coverage 10 000 sq. ft. Apply 5 lbs per 1000 sq. ft or 220 lbs per acre. To assure complete and even coverage apply at half rates in two directions. Apply to dry turf. Water in thoroughly.

SOLU-CAL K-CAL PLUS if used at 220 lbs per acre will provide 1.20 lbs of soluble potash, 0.66 lbs of calcium and 0.81 lbs of sulfur per 1000 sq ft with each application. It is ideal for all turf types.
