

Solu-Cal^{USA}

Enhanced High Calcium Lime

Works Faster and More Efficiently Than Lime

- Dramatically reduces manpower and transport cost
- Raises Soil pH in weeks rather than months, as compared to pelletized lime
- Only university tested and time proven enhanced pelletized Calcium product on the market
- Solu-Cal products contain

INTENSIFY

Soil Microbial BioCatalyst

Solu-Cal^{USA}

division of GROWMARK FS, LLC

“As a professional wildlife management consulting company, we have used various products over the years with moderate results. Understanding soil science we were introduced to Solu-Cal 3 years ago. We saw the benefits and cost savings to us and to our clients. Conventional liming methods take 6 months to work and require more product in maintenance. Having a product that corrects the soil in a matter of weeks, as opposed to months, faster greenup and less product to spread, saves us time, fuel and labor cost. Solu-Cal is a must have in all of our food plots and management programs. Bottom line it works and will give you the results your looking for.”

– Jon Charles, President, River Oaks Wildlife Management

Solu-Cal Enhanced High Calcium Lime | 36% Calcium

- Micro-fine Calcium Carbonate ground to 45 microns.
- Coarse Grade 210 sgn.
- Impregnated with INTENSIFY Soil Microbial BioCatalyst to significantly increase nutrient availability and efficiency while decreasing use rates.
- 36% Calcium for efficient pH adjustment yielding healthier soil.
- Within 8 weeks, full pH correction and Calcium loading is complete.
- 50 lb. bag covers 4,000 sq. ft. to 10,000 sq. ft. 550 lbs./acre to 260 lbs./acre.
- Safe to use any time of year.
- Apply up to 3 times/year.

Solu-Cal 6-12-6 Starter Fertilizer with 22% Ca | Covers up to 10,000 sq. ft.

Improves soil structure, stimulates root and leaf development, regulates soil pH, strengthens cell walls, promote better germination and stand development

- Less costly and more efficient than other starters.
- Fortified with SOLU-CAL soluble Calcium to ensure seedling development and increase turf vigor, reducing weed pressure.
- INTENSIFY-fortified starter enables SOLU-CAL 6-12-6 with 22% Ca to perform like 12-24-12 at a significantly lower cost.
- 22% Calcium strengthens plant and enhances seedling vigor.
- INTENSIFY helps the plant take in more of the nutrients from the soil.
- SOLU-CAL + INTENSIFY makes fertilizer work more efficiently.

Powered by **INTENSIFY** Soil Microbial BioCatalyst*

- INTENSIFY Soil Microbial BioCatalyst stimulates beneficial microbial activity in the soil to promote nutrient efficiency. While building soil microbial populations, this helps release nutrients in the soil. With enhanced nutrient release, this promotes strong, healthy growth that can better tolerate wear and stress issues like heat, cold, drought, and foot traffic.
