

HYDRO-CAL DRY

Hydro Seed Formula

Micro Fine High Calcium Lime

- Super high concentration of micro fine limestone
- 38% Calcium, low Mg content
- Soluble Calcium increases seedling density and decreases weed pressure
- Provides available Calcium
- Improves nutrient uptake in low pH soils

Directions for use

After filling hydro seeder 1/3 full of water add Hydro-Cal Dry, Seed, Mulch and Fertilizer.

Refer to equipment manufacturer's loading Instructions.

Application Rate

In the absence of soil test,
100 lbs/acre is recommended.

pH Range	Use
6.6 to 6.1	25 lbs/acre
6.0 to 5.6	50 lbs/acre
5.5 to 5.1	100 lbs/acre
less than 5.0	200 lbs/acre

Soluble Powder

Ideal for Hydroseeding

50lb bag
Easy on Pumps
Soluble in Water
